ABOUT ME

Passionate Full-Stack Developer and AI/ML enthusiast focused on building high-impact, user-centric products. I thrive on solving complex problems, whether that involves engineering robust backend services, crafting dynamic frontend experiences, or developing and integrating machine learning models. Active open-source contributor (GSSOC '26) consistently exploring new technologies to ship innovative tools.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML/CSS

Frontend: React, Next.js, Tailwind CSS, GSAP, Framer Motion

Backend & DB: Node.js, Express, PostgreSQL, MongoDB

AI/ML: PyTorch, Google Gemini API, Hugging Face, Transformers

Tools/DevOps: Git, Docker, Vercel, Firebase, Linux

KEY PROJECTS

RepoOwl

Next.js, Node.js, Gemini, PostgreSQL

- Engineered an AI-powered GitHub extension for automated issue triage and duplicate detection.
- Leveraged LLMs and semantic similarity to streamline repository management for maintainers.

NavNER-AI

React, Leaflet, Node.js, MongoDB, Gemini

- Developed an AI logistics and accessibility intelligence platform specifically designed for the North Eastern Region.
- Integrated predictive disruption alerts utilizing mapping libraries and real-time AI analysis.

OmniReceipt Parser

Next.js, TypeScript, Gemini Multimodal

- Built a tool to convert unstructured physical receipts into clean, structured JSON data.
- Utilized Google Gemini's multimodal capabilities to accurately extract financial information from raw images.

VISION RUSH

Python, PyTorch, DINOv2

- Designed a deepfake detection engine from scratch utilizing a Vision Transformer (ViT-B/14) architecture.
- Employed a DINOv2 backbone for high-accuracy feature extraction and anomaly detection in synthetic media.

News Guru & ShopKart BEL

React, Tailwind, Node.js, Express, MongoDB

- **News Guru:** Created a minimalist, ad-free news aggregator prioritizing a clean reading experience.
- **ShopKart BEL:** Built a full-featured e-commerce platform managing the entire user journey from catalog to checkout.
